

## 7. ANTIRASSISTISCHES FUSSBALLTURNIER

**23.07.-25.07.10**  
**in Kittlitz/Oberlausitz**

Okay Guys, the moment has finally arrived! The associations „Partysahnen“ and "Augen auf" are inviting YOU to play soccer at the 7th International Soccer Tournament against Racism in Kittlitz (Germany, Saxony). And on top we're proud to present you fantastic bands, fun games and much more!

Soccer is one of the most popular games in the world. You need no language to understand what soccer is about.

With our tournament we want to give different groups, lifestyles and cultures a stage to present themselves. Everyone of you knows that soccer also has some negative connotations related to the fans and their cults. Frankly, there still is a racist fan scene. In European stadiums, dealing with violence and racism has become a sad part of daily routine. Maybe we can discuss these things OR we just play soccer without prejudice.

Like it was in 2009, our tournament is not only about being a good soccer player. Of course you get points for every game won by your team, but in addition to that you can play different fun games where you can count fairplay points which are also counting in the end. So you won't have to be a soccer pro to win at „soccer against racism“ but a fair player.

This year we hope that more teams from Poland and the Czech Republic come to play with us than in the past years. Maybe you can help us by inviting your Czech or Polish friends? Everyone can join the tournament with a team.

„Soccer against Racism“ stands for fair play, consideration, and respectful co-operation. And of course, we all want to have a good time playing soccer and listening to great bands !

What we want from you as a soccer team is, that you choose a nation you want to represent on the tournament. This means, you need to have an outfit that fits the nationality and also need to be informed about the nation you choose and play for.

Here is some more information for the participants we want you to respect at our tournament:
